## County Court Day.

There was about 1500 cattle on the market. The quality was about as good as usual. Sales were a little slow and buyers did not seem to be as anxious to take the stock offered as they were last court day. We noticed the following persons with stock at Fitzpatrick's yards from Morgan county: Salvers & Co., J. C. Couchman, Brice Stacey, Robert Cecil, J. Halsey, Gividen & Lacy, W. B. Allen and Joe Perry. Magoffin county was represented by J. D. Allen, Gold Howard, and L. C. Baye. From Wolfe county Swango & Pieratt, J. M. Rose, W. H. Wilson, and S. C. Williams. Allen & Trimble from Johnstown; O. H. Downing, J. W. Rothwell and B. B. Little, of Menefee county. A. J. McKennie, of Rowan county; Nelson Hays, of Knott county; A. Stanley, J. W. Cline, of Floyd county. There were several other parties with stock on the market but we did not get their names.

We got the following sales of cattle: J. D. Reid bought about 25 yearlings, weighing about 800 pounds, at from 2 1/2 to 3 cents per hundred. Ed. Previtt bought some feeders, average 1050, at from 2 1/2 to 3 1/2 cents. H. B. Little sold to T. L. Shroat 15 yearlings to T. L. Holliday, of Winchester, at 3 cents. A. J. Ware, of Hedges Station, bought a lot of heifers at from 2 to 2 1/2 cents. Bruce Turner sold for H. C. Turner, 8 steers, weight 1000 pounds, to Captain Gillespie at \$2.00 per hundred.

J. F. Gaines bought 10 feeders, weight about 1,100 lbs. at from 3 to 3 1/2.

J. D. Allen sold to M. A. Thomas, son of Bourbon Co. 14 feeders at 3 1/2 cts. and D. W. Bayles some feeders, weight 900 lbs. at 2 1/2.

Salvers & Stafford sold 12 yearlings, weight 900 lbs. at 3 1/2 cts.

Thomas Woodford of Bourbon Co. bought a lot of feeders at 2 1/2 cts. Brice Stacey sold John Woodford 12 yearlings at 2 1/2 cts.

Jas. Bogie bought 18 yearlings of good quality and weight at about 3 cts.

Dan Welch bought 25 heifers, 800 lbs. weight, at 2 cts.

## HORSE MARKET.

There were several buyers from Paris, Carlisle and Lexington looking for good horses. Thos. I. Davis, of Carlisle, bought several horses of A. T. Thompson's stable at fair prices. Good horses are in demand and bringing good prices. Carlthens & Beard, of Lexington, were buying mules, but at low prices.

## Associated Charities.

The Board of Associated Charities for Mt. Sterling, and all others interested in this work, are urgently requested to meet at the ADVOCATE office on Thursday afternoon at 2 o'clock. Plans for continuing this much needed work during the winter and the election of officers for the ensuing year will be brought before the meeting.

WM. MITCHELL,  
President.

J. W. HEDDEN,  
Secretary.

Dr. W. T. Tibbitts filed the pulpit at the Christian church on Sunday morning in the absence of the pastor, Elder H. D. Clark, who is engaged in a meeting at Mayeville.

## Escaped from Jail.

(Special dispatch to the Cincinnati Enquirer.) Anderson, Ind., November 17.—Louis Eastin, arrested at Portland and placed behind the Madison County Jail bars one month ago for the betrayal of Miss Pearl Keltner, of this city, made his escape last night by filing a key and opening his cell door. He is a well-known painter, is a Southerner, rather "flip" and a man of family.

Died, On Monday afternoon, at her home on Montgomery street, Mrs. Jennie M., wife of W. T. Sanderson, of consumption, aged 23 years. Mrs. Sanderson's funeral will be preached this morning at 9:30, at the residence, by Rev. C. J. Nugent, of the Methodist church, and she will be buried at Crown Hill cemetery, Sharsburg, at 12 o'clock. Mrs. Sanderson was a good woman, a Christian woman, with her faith firmly fixed on her Savior. She was 23 years old, and had been married only one year and eight days. This was her second marriage, and she leaves a husband and a son three years old. She moved here from Mayeville with her husband last March, and made many friends, who sympathize with him in his heavy loss. Mrs. Sanderson was a daughter of William Hamilton, of Nicholas county. Mr. George Meyers and wife, her grand parents, were at her bedside during her last illness.

Mr. A. M. Jones has moved his coal office from High Street to South Mayeville Street adjoining I. F. Tabb. He will have a large business by furnishing the very best grades of coal at the lowest possible prices. His weights are full and never has any complaint been made. He keeps in stock all of the better grades of the Kentucky and Virginia coals and since his removal his trade which was already large has been more than doubled. He asks the patronage of the public and promises them good coal the lowest prices and full weights.

It is somebody's business to see that the pavements in the city limits are kept in proper order. There are many needing attention and we trust this suggestion will remind some one of neglected duty. Wednesday evening there will be a call meeting of the City Council to open bids for the franchise of the street railway proposed.

The Mt. Sterling Commercial Club should be reorganized for the purpose of selecting proper men, whose duty it shall be not only to look after our interests, but to secure additional ones.

Those jockeys who visit here Court-days should find other places than the public streets on which to do their trading, and we think the Council would not injure our business interests by saying to them, "move on."

Dr. William VanAntwerp has rented his business room on Broadway, formerly occupied by the Sentinel-Democrat.

The Epworth League gave a fine entertainment to the delight of many at the M. E. Church Sunday evening.

Rev. Everett Gill preached at the Baptist church Sunday morning and evening to large and appreciative audiences.

## "A Journey Around the World," By Rev. Francis Clark.

Is a book worth reading. Vividly it gives the customs of foreigners, describes the country, the manner of travel, and relates many pleasing anecdotes.

The reader is personally conducted through Austria, India, China, Japan, Egypt, Palestine, Turkey, and many other lands. We see these countries through American eyes, and obtain a perfectly clear view of them and their people, supplemented by two hundred and twenty splendid illustrations from photographs, most of which were taken by Dr. Clark himself; for he carried a complete photographic outfit with him.

The description of modern life and scenes in Palestine is written with an earnestness and fervor that make this portion of the book wonderfully real and precious to Bible readers.

A journey was made of hundreds of miles in an old spring wagon across Turkey in Asia, through an unknown country infested by robbers and how the natives. The story of this perilous trip is full of thrilling interest and exciting adventures.

Mrs. Clark accompanied her husband everywhere. She draws a vivid picture of life in far-off lands. "As seen through a Woman's Eyes." Her narrative is packed with anecdotes, incidents, and personal experiences. Her story of the long journey in the wagon is highly entertaining, its privations and perils, especially to a woman, being many. She was the only woman in the party, which consisted of herself and seven men.

The book contains 640 pages, 220 illustrations, and is well bound in cloth, library and silk. Miss Ida M. Thomas is the agent for this section. She will call at your homes and give you an opportunity for buying a nice Christmas present for your friend.

Hon. John P. Martin, of Xenia, O. is here prospecting, with view of constructing an electric railway from here to Sharsburg and from here to Clay City, connecting with the K. U. Railroad. J. M. Bigstaff went over the proposed line with him from here to Sharsburg, and Mr. Martin will also go over the line from here to Clay City, and in the event he becomes the purchaser of the franchise from the city he says the line will be constructed.

## Master Commissioner's Sale.

Master Commissioner Allie W. Young sold on yesterday, County Court Day, the following pieces of property:

To J. W. Hunt, G. J. Hunt, and W. D. Strode 167 1/2 acres of land near Grassy Lick for \$5550.40.

To J. Davis O'neal 25 acres of land near Camargo for \$501.

To G. W. Baird a house and lot (the Uncle Jack Baird property) on Mayeville Street for \$5,000.

To G. W. Denton the home farm of A. L. Denton for \$2,347.

To W. F. Dickerson the office property on Short Street for \$3,100.

To W. D. Strode, 119 acres near Grassy Lick for \$4,050.

To National E. and L. Association, house and lot in Mattie Lee, property of Jacob Fester, for \$777.35.

To Dr. A. B. Stoops, 14 acres of land near the city limits for \$1,000.

## Information Desired.

To settle an estate, I desire information of the whereabouts of Thomas Johnson who left Montgomery county, Ky., some eighteen years ago. When last heard of he was at Danville, Ill., following the occupation of a farmer, at Thos. Dalse. He left Montgomery county with Wm. Flanders. He is aged forty years. There is some money coming to him out of the estate. Address

JAMES WILLIAM JOHNSON,  
Mt. Sterling, Ky.

## Prevention Is Better

Than cure, and those who are subject to rheumatism can prevent attacks by keeping the blood pure and free from the acid which causes the disease. You can rely upon Hood's Sarsaparilla as a remedy for rheumatism and catarrh, also for every form of scrofula, salt rheum, boils and other diseases caused by impure blood. It tones and vitalizes the whole system.

Hood's Pills are easy and gentle in effect.

Sutton & Smith will keep open until 9 o'clock p. m. until after Xmas, as the days are so short they can not wait on all of their trade at Masonic Temple during daylight.

At Syracuse, N. Y., Bob Fitzsimmons, the pugilist, accidentally killed his sparring partner with a blow in the jaw from one of his mighty right-handers.

## Accidental Shooting.

On Saturday afternoon about four o'clock, as Lee Garrison, son of Mr. George Garrison and Will Hurst, son of Mr. Dan Hurst, were returning from a day hunt Lee Garrison was fatally wounded by the accidental discharge of young Hurst's gun. The boys were coming home and were in Pat Puncle's pasture near the toll gate on the Grassy Lick pike. Hurst was a few steps in front of Garrison with a 22 caliber rifle in his hands, Garrison called to him to let down the hammer of his gun. Hurst attempted to comply but his hands were more chilled than he thought and in letting down the hammer it fell from his grasp and to his horror he heard immediately after the explosion of the gun the cry from his companion, "Oh! Will, you have shot me", and saw him fall to the ground. The ball had entered the forehead just above the eye and had probably lodged against the bone at the back of the head. Young Hurst as soon as possible procured aid and took the boy home, where he died late Monday afternoon.

Mr. Charlie Fogg entertained about forty of his young lady and gentlemen friends on last Thursday night by giving them a Mistletoe Party at his hospitable home near the city. Charlie acquitted himself as host in excellent style, and his assistant, Miss Maggie Fogg, displayed her talent as a hostess in a faultless manner. The Mandolin Club played some very sweet music. About midnight a most sumptuous repast was offered, and to say it was fit for the gods does but half express the feeling of those who partook thereof. At a late hour the happy crowd dispersed feeling obligated to Mr. Fogg for the splendid manner in which they were entertained.

A series of special services will be held in the Episcopal Church commencing at 7 P. M. Friday of this week, they will be conducted by Archdeacon Benton; each day there will be morning service at 10, Bible Class at 3, and special mission service at 7; on Sunday, morning service and Holy Communion at 11, Children's Service at 3, and Mission Service at 7. Strangers will be cordially welcomed at these services and a hearty invitation is given to all to attend.

Esq. J. M. King, and L. G. Willis, of Powell county, were in the city Monday on business. Mr. King has been a member of the Powell County Court for five years and watches the interests carefully. Mr. Willis goes to Covington December 1st as a United States Juror.

A letter received in London from parties in America reports atrocities perpetrated by the Turks that almost pass belief. These outrages are said to have been committed upon orders from Constantinople. British Consuls have been instructed to investigate the truth of the report.

The popular lecturer, Ex-Gov. Bob Taylor, has been engaged by the ladies of the Christian church Missionary Society to deliver a lecture here early in December.

British Honduras has demonetized silver and adopted the United States gold dollar as the standard coin of the colony.

**ANNOUNCEMENTS.**

**For Railroad Commissioner.**

We are authorized to announce John C. Wood as a candidate for Railroad Commissioner, for the Eastern District of Kentucky, subject to the action of the Republican party.

The record-breaking Republican plurality in Pennsylvania, according to official returns, is 241,397.

Complete official returns from the Ninth Congressional district show that the Hon. S. J. Pugh, Republican, was elected over the Hon. Kola K. Hart by a plurality of 662.

Rev. N. T. Hopkins, the defeated Republican candidate in the Tenth District, will, it is said, contest Jo Kendal's seat in Congress to which he was elected at the November election.

The plurality of John K. Hendrick over his Republican opponent in the First Congressional district, is 10,000 instead of 4,000, as at first stated. The Democratic majority in the State will reach 10,000, instead of falling below 5,000.

Henry county Democrats will contest the election of Shouse, Republican, for Sheriff. He claims the election by three votes, but the Democrats hold that when numerous fraudulent votes are thrown out the Democratic candidate, Yeager, will have a majority.

The latest estimate of the political division of the next House, prepared by the Republican Congressional Committee, makes 245 Republicans, 105 Democrats and six Populists. In this estimate Kentucky is given six Democrats and five Republican Congressmen.

The complete returns of the election in Missouri show little for Republicans to exult over, and also show how easily the Democrats will carry the State two years hence. The plurality of the Republican candidate for Judge of the Supreme Court is 2,094, but the Republicans gained only 1,075 over their vote of two years ago, while the Democrats lost 41,812 through the failure of voters to go to the polls.

President Cleveland, in a statement for publication, puts at rest any doubt as to the relations between himself and Secretary Carlisle. He dismisses the rumors as "a batch of silly misstatements," and says that he and the Secretary are in thorough accord upon the subject of the bond issue and all other official questions. He expresses warm esteem for the Secretary and high appreciation of his services.

Menefee county will not be downed. The elected all Democrats to county offices except one. Russell Tabor, Republican, was elected Magistrate in the Rothwell precinct. Tabor is just a little bit Republican, not far from the kingdom.

The following Democrats were elected officers in Menefee county: T. L. Caudel, County Judge; J. H. Williams, Attorney; H. D. Combs, Clerk; J. B. Lyons, Sheriff; L. N. Collier, Assessor; Thos. Greenwald, Jailor; and G. W. R. Duff, Surveyor.

Secretary Carlisle has issued a circular inviting bids on a proposed loan of \$500,000 of bonds. The bonds will bear 5 per cent., but will be sold at such a premium as to reduce the rate to 3 per cent. Bidders whose proposals are accepted will be required to pay 20 per cent. in gold coin or gold certificates upon the amount of their bids. The bids to be received till noon November 24th. Bonds to be dated and bear interest from Feb. 1, 1894. The issue may be increased to \$1,000,000,000 if it is found the needs of the Treasury shall so require.

Encouraged by the results of the last election the R-republicans are making preparations to nominate candidates all along the line for state offices and push the canvass with a vigor hitherto unknown. If they will carefully examine the vote it will be profitable that they will find even in the light of the way things went a few days ago that there is not so much to encourage them as at first might appear. They will find that the result came about not so much because of the increased Republican vote as because of the way at home Democratic vote. The Democrats will be out next November and let your hear from them.

**Marks of Progress.**

Last Friday the writer visited Morehead, the county-seat of Rowan county, and this was his first trip to that town for eight years. Then it bore signs of lawlessness, now it is one of the quiet towns of the State, but it did not become so without blood, sorrow and tears. The residents of this quiet town are full of business; peace and order prevail.

The stores are well filled with merchandise, and residences of the most modern styles ornament the various streets. We were placed under lasting obligations to Dr. L. P. V. Williams for many kindnesses shown us. The Dr. has a good practice and is a candidate for Railroad Commissioner with flattering prospects for the Democratic nomination. He is well known over the entire of Eastern Kentucky, where he is held in high esteem for his worth as a man, and should he receive the nomination, his Republican nominee, whoever he may be, would be in a hard road for stumps. The Republicans we find in high spirits and they think the State will be theirs after the State election in '95, but we assured them that the anticipation would be all the enjoyment they would get out of it. Mr. James E. Clarke, a prominent Republican attorney, who had aspirations for the Appellate bench and who allowed him self against his own judgment to keep out of the race, is now knocking himself because he is of the opinion he could have defeated Paynter, hand-down, and has charged up to profit and loss \$40,000, which would have been his. Mr. Elijah Hogge, defeated candidate for County Clerk, has not the blues a little bit, and by the time he turns his office over to his successor will be engaged in some thriving business. He has made a good Clerk and will be just as industrious in his new business as he may engage in. J. G. Whit is doing a good law practice, as is W. A. Young, County Attorney elect, and Thomas W. Rose, who he defeated. Both these gentlemen are doing a good law practice. D. G. Ham, Deputy Circuit Clerk, is still on deck, and a more genial gentleman we never met. Morehead is full of good men and the town is making substantial growth.

The question is an important one as to whether the Mormons will control the new State of Utah after its admission into the Union and at some future time revive polygamy. The question whether the polygamists will control this new State will be discussed in the December Forum by Mr. Glen Miller, a well-informed resident of Salt Lake City.

At Greenup the Circuit Court granted William Jackson, convicted of wife murder and sentenced to the penitentiary for ninety-nine years, a new trial on the ground that one of the jurors in the case had his mind made up when accepted. Two regular witnesses swear that the juror had openly said that Jackson ought to be mobbed.

During a Republican parade at Elizabethtown Wednesday night, George Wilson, a negro, shot and killed a popular young man, Blake Robertson. The negro had wanted fired at the town marshal and missing his aim killed young Robertson.

State Treasurer Hale hopes to resume payment of warrants December 1. The emptiness of the Treasury was relieved Friday by the reception of checks amounting to \$125,000 with more to follow.

Gov. Brown, Wednesday, pardoned Frank Rankin, who was sent up for the murder of Martin Cody in Louisville in 1883, on a life sentence. Rankin was at one time a wealthy scale manufacturer.

The Board of Sinking Fund Commissioners Thursday adopted a resolution requiring the Frankfort penitentiary officials hereafter to keep within the prison walls all convicts save those employed on public work.

The coal miners of the Pennsylvania coke region are preparing to strike if the price of coke is not advanced by the operators so that wages may be increased.

The New York Board of Trade and Transportation has passed resolutions demanding the organization of the police force on a non-political basis.

H. A. Oberlin, of Covington, has secured the store-room owned by Judge Lewis Apperson, on Main street, and will this week open a stock of dry goods, notions, etc.

**Col. W. T. Dowdall.**

Col. W. T. Dowdall, of Illinois, is the col. stopping at the National Hotel. Col. Dowdall was for over a quarter of a century editor and proprietor of leading daily papers in his State at Alton during the war, and at Peoria after the war; was a Democratic leader and active worker from 1856 to 1886, being a delegate to every State Democratic convention during that period of time, also a delegate twice from the State-at-large and once from his district to National Democratic Conventions. Bad health caused him to retire from journalism and go on his agricultural ranch in the central part of the State, and take things easy. The Colonel was Postmaster in Peoria during Mr. Cleveland's first term as President, but was not an aspirant for any office during this term. He says he has regained his health on the farm and is making money, two things well calculated to satisfy any sensible man and cause him to steer clear of holding office, either District, State or National. When we state the Colonel's farm measures eight miles around it, one will not wonder at his disposition to take things easy and watch the salvation of the Lord. He favored our sanctum with a social call, as is his wont to do whenever opportunity presents itself, calling upon his editorial brethren. On being asked his opinion on the recent land-slide, he said:

"When one lays aside party preferences and high personal regard for those who ought to be paid leaders, I don't see how he can fail to see and understand the reason of defeat. Coming, as it did, from each and every section and portion of the United States, proves conclusively that the cause was national, not district, city or State. When a President goes into the opposing party for his chief political adviser, as Mr. Cleveland did in the selection of Judge Gresham, a life-long Republican, and, too, one who voted 306 times for Grant for Secretary of State, following it up with the appointment of lesser objectionable men for Cabinet positions, and first-class positions abroad, McVeigh as Minister to Rome and Bissell as Postmaster General, for instance, what else could you expect of tricky, slippery politicians in Congress and in the United States Senate—Hill, Gorman, Bruce, Palmer, ad infinitum."

"Had Mr. Cleveland called an extra session of Congress in April, 1893, to legislate upon the tariff reformation, a thing ninety-nine per cent. of the party were united on, then the slight ten scalawags in the Democratic party, who he had obtained official position through false pretenses, would not have dared kick over the political traces. But what did Cleveland do? he relegated tariff reform to the rear and convened Congress for the purpose of legislating upon the question of silver, and then took the wrong side of the question, as he did upon the Hawaiian matter, and used the Federal ratonage to help a very small minority of the Democratic party defeat the wishes of a very large majority of the party. Not satisfied with these terrible blunders and wrong-doings, in order to show his contempt for laboring men, and eagerness to serve the monopolist, millionaire and tyrant, he violated every principle known to State right by sending the army of the United States to take charge of cities and States against the direct orders of the Governors of said States, prostituting the army to do police duty, thereby violating the letter and spirit of the Constitution of the United States, which he had taken a solemn oath to uphold and defend. With such actions on the part of the Administration, how could any one expect different results at the polls than were made manifest the 6th inst.?"

"What will be the result of this matter?" was asked.

"I hope it will be the means of greater detestation being paid in party conventions to selecting candidates for office, who elect to ally to the best interests of the masses of the American people, and less desire to get candidates to represent the millionaires. The fact is, there has been too much running after Wall street interest, and too little interest to the poor men of the country. Any administration or political party dominated by Wall street will, as it ought to be, be turned down. The man or men, I care not who they are, who use their power to serve Wall street interests, as against the laboring, toiling masses of the American people, are no Democrats at heart, and the sooner they ally themselves with the Republican party the better for Democracy and the country. No, Democracy is

not dead; it will live as long as a Republican form of government exists in this country. The recent vote was not against Democracy, but an emphatic slap at those men who have been elected by Democratic votes and turned traitor to their trust the first opportunity, and kept it up to the extent of disgusting a very large per cent. of the honest men of the party."

**Just Like Lazarus.**

The Daily Capital reports the following conversation between a gloating Republican and a despondent Democrat:

Republican—Well, how do you Democrats feel?

Democrat—Just like Lazarus.

Republican—How's that?

Democrat—Like we have been licked by the dogs.

Curtain.

To all whom it may concern:

In the State of Kentucky and especially to the Democratic party. I advise you to vote for your interest, and not vote for one Ed Porter Thompson, on the grounds of publishing a letter recommending the maps, charts, etc., to the trustees of common schools of the State of Kentucky, for the interest of one C. R. Nightingale and agents, making the people or trustees believe that it was law and they had it to do, when it is their sorrow and disappointment; when it is not a compulsory law.

Yours Truly,  
L. G. WILLS,  
A Democrat.

The quaint little women of Kate Greenaway are to be seen in a magazine for the first time since their creation. Miss Greenaway has heretofore always drawn them in color and for book publication. Now, however, she is at work upon a special series of her curious toys for The Ladies' Home Journal, and in that periodical they will alternate with a new series of Palmer Cox's funny "Brownies."

Sunday slaves are again in order. Judge Thompson, of Louisville, decided Thursday afternoon in the Ordinance Court that the law prohibiting tussling operations on the Sabbath is unconstitutional, being class legislation.

The law was passed at the solicitation of the Barber's Union, and has been in effect for a year.

The faculty of Kentucky University deny the story that twenty students are seriously ill from drinking impure water, and that three deaths have occurred within the past week. They say that nine students at different times have been ill, but there have been no deaths among them from fever.

The Two Million Club, which was organized some time ago to boom Chicago's population toward the two million mark, claims that its labors are at an end, as it estimates the number of persons residing in Chicago at 2,335,000. "Greater New York" will leave the Windy City far in the rear in point of population.

Robert C. Winthrop, who died in Boston on Friday night, was in his day of activity one of the foremost orators of America. On account of delicate health he has for many years lived a retired life. But when the roster of Massachusetts' brilliant men and splendid orators comes to be made up, Robert C. Winthrop's name will stand high on the list.

**Superintendent's Report of District Schools.**

Prewitt School, District No. 35.—Miss Martha Gay teacher, certificate first-class; has a very interesting small school; very small district, but teacher and pupils both seem to be taking great interest in the school, all of which it takes to make a good school; number of pupils children in district, 33; number enrolled, 23; highest number at school, 23; lowest, 11; present, 17; school draws from State \$123.75; schoolhouse very small, but comfortable; have desks, maps, charts and globe; good stove, good blackboard; trustees visit school frequently and supply the needs of the teacher.

Moberly No. 12.—Miss Loula Wamsley, teacher, new school house, well furnished, except maps, and charts; have large globe, good blackboard and plenty of desks; school seems to be alive, which will show by the number of pupils in attendance, which Miss Loula informs me has been regular from the beginning; number of pupils enrolled, 61; highest number in attendance, 58; present, 32; lowest, 36; number of pupils in District, 51; draws from State \$222.75; trustees visit school and attend to the necessities of the school. All that is needed to make an interesting school is the hearty co-operation of teacher and trustees.

Lane School, District No. 5.—Miss Bessie Lane, teacher. School house in good condition; good desks, blackboard and other fixtures, but have no maps, charts or globe; the teacher seems to be alive to the interests of her school; classes seem to be very much devoted to her, and recite very nicely; there are 94 pupils children in the district; draws from the State \$252.00; number of pupils enrolled, 40; highest number at school, 40; lowest, 10; present, 18; number of recitations per day, 21; trustees seldom visit school, but teacher says they would respond if she would make a call.

Oak Hill School, District No. 28.—Miss Lela Anderson teacher, certificate first-class; competent teacher, with an industrious, competent teacher, who takes the pupils to the utmost of their capacity, and will not accept lessons unless they are perfect; house good, furnished with desks, maps, charts, new stove, etc.; it seems that trustees realize the needs of a school and supply them; if trustees would do likewise all over the county, how much better it would be to both teachers and pupils; number of pupils in district, 70; draws from State \$192.75; highest at school, 30; lowest, 11; present, 23; number enrolled, 31; recitations per day, 25; trustees visit school and attend to the calls of the teacher.

Council Bluffs School, District No. 24.—Miss Rebekah Smith, teacher; certificate first class; school in as good working order as could be expected owing to disadvantages which must be considered; house in bad condition; needs repairs or a new one; trustees say they will repair it soon, which they should justify to the teacher.

**County Teachers Association.**

County Teachers' Association in the Third Magisterial District composed of Howard's Mill, Spencer and Hart's precincts, will be held at Spencer school house, near Spencer Church, on the 4th Saturday in November, beginning at 8 a. m. The object of this meeting is to cause a deeper interest in the public schools of the county and to promote the cause of education generally. Following is the program:

Geography—Misses Bessie Lane and Lelia Anderson.

Arithmetic, Fractions—Mr. B. F. Ransom, Miss Lizzie Reid.

Grammar—Mrs. Emma Walker, Miss Fannie Jones.

How to Secure a Better Attendance—Miss J. Ann Graves.

Should Teachers Pre-prepare Better School-houses?—Miss Rebekah Smith, Georgia Sield.

L. N. HORTON, Pres't.  
Miss GEORGE LINDY, Vice Pres't.

It is our pride to sell only such goods as will be recognized to be of merit wherever you may meet them.

**Send for our Catalogue.**

The styles are not much changed from what you saw last season, only the goods are better, being better made, and free wool enables our manufacturers to do away with shoddy; the result being that our customers get better value for the money spent than ever before.

Many plain fabrics will be used such as Henriettes, Serges, Wilpoor, Tootlecloth, Broadcloth, Ottoman Cord, etc.; and in rough effects we have great variety, from Domestic Fur coat Suits, at 45c a yard, to the Finest Imported Novelty, at \$40 a pattern.

Tailor-made costumes will be more worn than ever before, and we have taken great pains to secure the best goods for this purpose, and in addition to the Storm Serges and Broadcloths, of which we carry every quality of Covert's cloth beginning at 85c for a 50-inch goods, then \$1.25, \$1.50, \$2 and \$2.50; also Satin, Berber's Satin, solid Silk mixed diagonals are made up the same way, though many prefer to trim these goods with Velvet, or with Fancy Silks. We submit the following prices on

As a Todd, of Spout Springs, Ky., was present Thursday while Richard Woosley was cutting down a tree that was on fire, and a limb burst off and in the fall struck Todd across the forehead, and he has not been able to tell daylight from darkness since. It is feared that the fire on the limb has seriously injured his sight.

As there have been a great many who want to know where Miss Elizabeth Riley and Mr. Green Trimble fell over the cliff on Pilot Knob, I will inform them, as I happened to be there a few days after when Mr. Riley and Mr. Johnson measured the distance with a tape line, which was 75 feet. The first perpendicular fall was 30 feet, and then they slid down a steep sliding place out of the basin they had fallen into, a distance of 45 feet. The place is about 10 steps south of the Dripping spring. The basin has a narrow opening at the base, and for one to look at the place they cannot help but think what a miracle it was that both of them were not killed. God certainly was with them.

I Believe in Hood's Inherited Scrofula Cured

Read the Statement of a Popular Teacher

The statements in the testimonial below are familiar facts to the immediate friends of Mr. Geo. Zirkle, a member of Mt. Horeb, Tenn., very well known throughout the county, where he was born and has always lived. Read it.

"I, J. H. Hood & Co., Lowell, Mass.

"Dear Sirs:—I believe in Hood's Sarsaparilla. I will tell you why. I have suffered from inherited scrofula from childhood. When I was of age, my eyes became strangely affected. I could not read after sunset, and when I would close my eyes, I could not open them; but on whichever side I lay, on that side I could open my eye. This condition continued about two years, and was accompanied by

An Intolerable Itching all over my body and limbs. I had to have my little boys take shoe brushes and scratch me. It was dreadful. It continued a month and was followed immediately by a tumor in the right side of my neck, as large as a small egg. I at once commenced taking physicians' prescriptions and continued well I suppose. In the meantime the tumor changed its place to the immediate front of my neck, and another large tumor seated itself on the point of my collar bone and in six months another half yard on the neck and continued to do so till about seven months ago. I tried everything, including prescriptions. I was often so weak that

I could scarcely walk and my mind was so confused that I could scarcely attend to my business (school teaching). I was utterly discouraged. And now my friends drove me to a close. I began the use of

Hood's Sarsaparilla a little less than a year ago, and took five bottles. When I began, I had no faith in it. In less than three months both the sores on my shoulder were healed; I was cured of a troublesome skin disease and scrofula had been gradually grown less apparent. I weigh more than I ever did in my life, and am

In the Best of Health, considering my constitution. Do you wonder that I believe in Hood's Sarsaparilla? I can do no less than recommend it everywhere and every day."

W. A. STURGEON, Mt. Horeb, Tenn.

Second-hand Door-plates.

You have possibly heard the story about the man who bought a second-hand door plate with the name "Johnson" on it. That wasn't his own name, but he got the door-plate very cheap, and he said that some time he might get married and perhaps he would have a daughter who would marry a man named "Johnson," and they could use the door-plate. Well, he was right. And yet some people buy their life insurance on principles just as absurd. They buy life insurance that will only be paid if they die in certain ways defined by the company that issued the policy. If they should die in any other way, the company won't pay the death claim.

NOT BLOWN OFF BY THE WIND.

Children Feathers Disappeared as the Result of Electricity in the Storm.

About a year ago the telegraphic dispatches contained an account of a windstorm in the West, which not only blew down houses and fences and caused great loss of life, but actually stripped the feathers from a rooster. The correspondent stated that not even the plumes were left, and his description of how the cock next morning strutted forth, flapped his naked wings and crowed with a somewhat disfigured and merriment. It was reasoned that a wind of such force would have blown the fowl to Jericho, and the writer was set down as a Münchhausen. Scientific research, however, sustains the story, but ascribes the rooster's condition to another cause.

A writer in Der Stein der Weisen says: "Among the most astonishing effects of whirlwinds must be reckoned the well supported facts that on their cessation birds exposed to them have been found stripped of their feathers, and people with every shred of clothing torn from them. These effects cannot possibly be ascribed to the wind. The force necessary would have sufficed to transport the objects away bodily. Numerous similar occurrences were observed in France in the tornadoes which prevailed there three years ago, and these were gradually brought under investigation.

"Over the whole region affected trees were found rent in a manner which could not be satisfactorily resulted from the wind. These were, first, oaks split down the center for a length of 50 to 25 feet. Second, poplars and beeches for lengths of 6 to 12 feet were shivered into sticks of uniform thickness. For example, a beech tree 16 inches diameter was split into more than 200 sticks a centimeter thick, 2 centimeters broad and 34 centimeters long. Third, fir and other resinous trees had their stems cut clean through, leaving almost even surfaces. These phenomena and others of a kindred nature can be ascribed only to electricity."

Relics of Early Philadelphia.

James T. Evidge of the Quaker City has been an indefatigable collector of relics of Philadelphia's early history, and his cabinets contain one of the most curious personal collections to be seen. He has a chip from the first millstone in the United States, used on Kitchen street, Wiscashick; a funnel of lead made in Germantown 100 years ago, resembling a combined teakettle and coal scuttle; a piece of Franklin's first lightning rod, shilling scrip, printed in 1793 by Franklin & Hall on Rittenhouse paper; a portion of the old fence still standing on the battlefield of Germantown, riddled with bullets; part of the elm tree that stood on the Chew estate; rusty cannon balls and bullets picked up there, and a host of similar interesting mementos of the colonial and Revolutionary days. —Pittsburgh Chronicle-Telegraph.

Old Box Office Receipts.

There is no more interesting subject of study than currency. People do not realize how difficult it would be to get along without it. Some years ago Mile. Zelle of the Theatre Lyrique at Paris, on a professional tour around the world, gave a concert at the Society Islands in the south Pacific. It was arranged that in payment for an air from "Norma" and three or four other selections she was to get one-third of the receipts. Her share consisted of three pigs, 22 turkeys, 4 chickens, 5,000 coconuts and considerable quantities of bananas, lemons and oranges. The live stock and produce would have represented a value of about 4,000 francs in the markets of her native city, but it was hardly practicable to dispose of the former offhand, and the latter had to be fed to the pigs and poultry. —Washington Star.

Tales of Travelers.

Chinese Hostess—And what did you think of that country called America?

Chinese Traveler—The half has not been told. They are more barbarous than even the wisest priests of Buddha had supposed. The American husbands compel their wives to wear a deadly harness of steel and whalebone, the fetters and chains are placed so tight that the poor victims can scarcely breathe. In the course of years the vitals are pressed so closely together that the sufferers die in great agony.

Hostess—But what is this for? Traveler—So the brutal husband can go off and get a younger wife, of course. —New York Weekly.

Use Screws In Rented Houses.

Additions to rental premises when made by tenants, should never be fastened with nails, but with screws. The reason of this lies in the fact that should he wish to move away and take with him the screws and other lumber composing the improvements he has made he can simply draw out the screws and take the planks. If he fastens them with nails, however, he can remove nothing, and the improvements become the landlord's property. The fact results from a legal quibble, insisting that articles fastened with screws are for temporary use, and if put in place by the tenant are his own property. —Exchange.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A writer in Der Stein der Weisen says: "Among the most astonishing effects of whirlwinds must be reckoned the well supported facts that on their cessation birds exposed to them have been found stripped of their feathers, and people with every shred of clothing torn from them. These effects cannot possibly be ascribed to the wind. The force necessary would have sufficed to transport the objects away bodily. Numerous similar occurrences were observed in France in the tornadoes which prevailed there three years ago, and these were gradually brought under investigation.

"Over the whole region affected trees were found rent in a manner which could not be satisfactorily resulted from the wind. These were, first, oaks split down the center for a length of 50 to 25 feet. Second, poplars and beeches for lengths of 6 to 12 feet were shivered into sticks of uniform thickness. For example, a beech tree 16 inches diameter was split into more than 200 sticks a centimeter thick, 2 centimeters broad and 34 centimeters long. Third, fir and other resinous trees had their stems cut clean through, leaving almost even surfaces. These phenomena and others of a kindred nature can be ascribed only to electricity."

Relics of Early Philadelphia.

James T. Evidge of the Quaker City has been an indefatigable collector of relics of Philadelphia's early history, and his cabinets contain one of the most curious personal collections to be seen. He has a chip from the first millstone in the United States, used on Kitchen street, Wiscashick; a funnel of lead made in Germantown 100 years ago, resembling a combined teakettle and coal scuttle; a piece of Franklin's first lightning rod, shilling scrip, printed in 1793 by Franklin & Hall on Rittenhouse paper; a portion of the old fence still standing on the battlefield of Germantown, riddled with bullets; part of the elm tree that stood on the Chew estate; rusty cannon balls and bullets picked up there, and a host of similar interesting mementos of the colonial and Revolutionary days. —Pittsburgh Chronicle-Telegraph.

Old Box Office Receipts.

There is no more interesting subject of study than currency. People do not realize how difficult it would be to get along without it. Some years ago Mile. Zelle of the Theatre Lyrique at Paris, on a professional tour around the world, gave a concert at the Society Islands in the south Pacific. It was arranged that in payment for an air from "Norma" and three or four other selections she was to get one-third of the receipts. Her share consisted of three pigs, 22 turkeys, 4 chickens, 5,000 coconuts and considerable quantities of bananas, lemons and oranges. The live stock and produce would have represented a value of about 4,000 francs in the markets of her native city, but it was hardly practicable to dispose of the former offhand, and the latter had to be fed to the pigs and poultry. —Washington Star.

Tales of Travelers.

Chinese Hostess—And what did you think of that country called America?

Chinese Traveler—The half has not been told. They are more barbarous than even the wisest priests of Buddha had supposed. The American husbands compel their wives to wear a deadly harness of steel and whalebone, the fetters and chains are placed so tight that the poor victims can scarcely breathe. In the course of years the vitals are pressed so closely together that the sufferers die in great agony.

Hostess—But what is this for? Traveler—So the brutal husband can go off and get a younger wife, of course. —New York Weekly.

Use Screws In Rented Houses.

Additions to rental premises when made by tenants, should never be fastened with nails, but with screws. The reason of this lies in the fact that should he wish to move away and take with him the screws and other lumber composing the improvements he has made he can simply draw out the screws and take the planks. If he fastens them with nails, however, he can remove nothing, and the improvements become the landlord's property. The fact results from a legal quibble, insisting that articles fastened with screws are for temporary use, and if put in place by the tenant are his own property. —Exchange.

## What is CASTORIA

Castoria is Dr. Samuel Fitcher's prescription for Infants and Children. It contains neither Opium, Morphia nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

**Castoria.**  
"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effects upon their children."  
Dr. G. C. OSOON, Lowell, Mass.  
"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphia, soothing syrup and other harmful agents down their throats, thereby sending them to premature graves."  
Dr. J. F. KNEELAND, Conway, Ark.  
"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

**FREE COINAGE OF SILVER.**  
The free and unlimited coinage of silver, the product of American mines, at the old ratio of 16 of silver to 1 of gold, is the only solution of and remedy for the disturbed and unsatisfactory condition of trade, manufacture and general business of the country. The surreptitious act of 1873, divorcing silver and gold in our monetary system, was a crime of untold magnitude. It was the rankest kind of class legislation in favor of the wealthy against the producers of wealth, and hostile to the prosperity of the United States. It was an act of treason because done at the instance of a European syndicate and for bribe money, "giving aid and comfort to our country's enemies." To shield the guilty parties, the well authenticated facts, often published, have been vigorously denied.
